I got a voice message from Lee a little while ago, when I called her back I got her machine. I asked her to call me back so we could discuss what questions she'd like to ask and I'd get our experts together to talk with her.

Who's available and when ... Mark, any advice for us?

Subject: Contact information

Good morning Lee,

It was good to talk with you Friday. I hope your weekend in Lane County went well. I want to follow up with contact information you might find useful regarding the Highway 36/Triangle Lake Human Health Exposure Investigation being conducted by PARC (the Pesticide Analytical Response Center) and led by Oregon Health Authority. As I mentioned, I will be on vacation for the rest of the week starting Tuesday and back in the office Monday 8-29. In my absence, Christine Stone of Oregon Public Health will be primary media contact for the investigation and can respond to any additional questions you might have. Below are the key contacts I mentioned in our conversation on Friday.

I am copying each of these contacts so you will have their email address as well.

Thank you for checking in with me last week.

bp
